HEALTH RULES

HEALTH RULES
Health rules should be feafured among New Year resolutions such as having a checkup by the doctor as often as he
advises; seeing the dentiat
furee yearly; having your eyes
examined at least annually atter age forty; having your
glasses and frames checked
and made them — If they are
bent for out of alignment, they
can affect your vision.

USEFUL KNOTS

A new feature of the scout column will be five art cles on knots which are not only useful to cubs an scouts but to boaters and well, just about everyone.

The first knot will be one of the easier knots to The square knot is used for tying bandages in first aid because it is flat; it is used for tying two ropes of equal thickness together and it is ideal for reefing or furing salls.

Step 2.

Now take the rope in your right hand and place it over and then under the rope in your left hand.

You have done it right if the two ends of the roj dicated in step 3, are on top of the knot.

WINTER SWIMMING

CHRISTMAS TREES

Scouts from Lindsay will again collect Christmas trees for their annual bonfire Saturday. Scouts will start at 9 a.m. Saturday morning and pick up trees from boulevards and take them to the park at the end of Durham Street where they will be burned Saturday night.

The evenling sus had sunk blood red
As I tord the grassy way.
And up from the mark the wild birds sung
I sat me down by the river bank
and the imoss was neath my feet.
And the imoss was neath my feet.
And the imoss was neath my feet.
The meadow hay so sweet
The meadow hay so sweet

The Tristan da Cunbans were home-sick during their sojourn in Britain and they returned to their island home in 1963, many of them taking back tran-

sistor radios and other forms of the trappings of civilization. Now some of the islanders are now vearing for the new life they experi ed in Britain and want to return again.

Prominent Canadians

Recently the National Junior Chamber of Commerce suggested that Canada's paper money be used as a "picture gallery" of Prominent Cana dians. The idea was advanced in the spirit of unity.

We have no particular objection to Prominent Canadians being honoured on paper currency or in any other way, but we dislike intensely the way groups

make these "unity" suggestions when they really mean they want to see the portrait of Canada's Queen banished

THEY DON'T WANT THE MESSAGE

(CP) — Kenneth Cannon of Yucaipa, California, is putting up his house for sale. The Cannons have had enough of bumping, thumping, knocking and wheezing along a hallway in their home, which has dis-turbed them since December 6th. Geologists, technicians and plumbers have been unand plumbers have been un-able to trace the noises. And a group of spiritualists claim there is a spirit trying to get a message through. But Mrs. Cannon comments: "Even if there is a message, we prob-ably wouldn't want to know about it."

Heavy Drinkers

The over-zealous attitude of temp erance groups does more harm to their cause than good, the editor of the Un ited Church Observer said last week.

Ray, A. C. Forrest told 630 teenagers attending the annual youth conference forces in this country have too often been shrill intrepld voices of prohibi-tion and total abstinance."

He said that abstainers look with scorn on moderate drinkers and are unwilling to admit the possible advantages of moderate drinking.

This may be so, but one thing this nation and its neighbour the United States of America needs now is a sensible widespread temperance organiza-

tion with a practical programme.
This nation is sodden with heavy
drinkers, chronic lushes and semi-

the petty wrangling of Board of Man-agement with their often arbitrary rulings for the minister to follow. When he preaches a good sermon he is taking over the needs of the parasitor-ers" and when he presches an admoni-tory sermon he is obviously insinuat-ing that his listeners are not the up-right, good-living citizens they just know they are!

Doctors, with the exception of those

in larger centres, are not usually in a much better financial position. Years town, cares for the sick and wounded and gets paid—sometimes. No won-der so many doctors today are becom-ing specialists instead of general pracitioners with their night calls and ac-

ror figures or nigaway accidents.
The horrifying figures of alcoholics
and problem drinkers are seized on by
prohibition organizations yet whatever statements they make it will be
of no avail. The sobering fact is that
alcoholism ranks among the major liseases of the country and will prob-ably remain that way.

Distillers and importers of liquor are

interested in keeping the taxes on spirits down and the sales up. We be-lieve in all the taxes the traffic will bear. The only way to stop many of the drinkers is to make the tax bite bigger and bigger

Those who can afford to drink the cup that cheers despite its attendant evils can afford to pay the tax.

Green Light for Channel tunnel

Next year, 900 years after Great Britain was invaded by William the Conqueror in 1066, government offic-ials in the U.K. and France must make a decision about the Channel Tunnel link, which has been a dream since

The technical green light, in the form of a survey report reached the two governments within the last few days. Assured of the feasibility of construction, whether a bore or an im-

Has anyone been overlooked?

Are there any Ontario lawyers with more than 11 years' membership in the bar who have not yet been appointed Queen's Counsel? If there are, the must feel embarrassingly conspicuous because it has become quite difficult to avoid the honor and eyebrows are raised when it does not arrive on

Attorney-General Arthur Wishart ha ertainly done his best to spare lawyers the shame of such ignominy by spread-ing the 1966 QCs around, deep and cris; and even. The total number of ap-pointments this year was 110, surpaspomiments this year was 110, surpas-sing the 1965 score by three. This is an imposing number of individuals to find within one professional group possess-ing the qualifications cited by Mr. Wishart: character, general capability, leadership in the law profession and contribution to public service.

We had a leavy at 1364 — only 79. This was the product of a somewhat stricter policy introduced by former Attornsy-General Frederick Case probably in reaction to rising criticism about the system of appointments and the fact that, in 1986, Mr. R. A. MacDougall of Woodstock had refused to except the short beause he objected to the fadiscriminate and meaningless way in which if was being distributed way in which if was being distributed

Mr. MacDougall was, of course, quite right. The distinction — to use the term loosely — may be useful to the term loosely — may be useful to impress clients, particularly American clients, but it has become a mockery of its original purpose. How can the appointment as Queen's Counsel seriously be taken to indicate su

ers who were Queen's Council were the elite of the legal profession, but this is no longer true. In Ontarlo, the idea of 'reserving this as the highest of pro-fessional honors, to be conferred only upon barristers with exceptional learn-ing and ability in practice before the courts, has long since been amothered. The recipient's standing as a barrister does not seem to guide the selection and the honor is often given to lawyers who never appear in court. The very numbers in which the ap-

pointments are ladled out devalues their meaning but the Ontario Govern-ment seems content to elt the degrada-tion continue. Mr. Wishart has obed by his predecessor to restore mean ing and value to the title, choosing in stead to hasten the day when it wi be nothing more than a long-service medal. At a rate of 110 a year, it should not take too long.

Wholesale Prices jump upwards Canada saw "little evidence to indicate

Ottawa (CP)—For the second time in nine months, there has been a sharp jump upwards in wholesale prices. The Dominion Bureau of Statistice has reported its index based on 1935-39 prices equalling 109 jumped last month to 255.5 from 253.8 in November and 252 in October.

The index measures prices of nearly all goods not covered by the consumer price index. It had kept within a nar-row range of about one point above and below 245 for most of 1963 and

It shot up last April, May and June to 252, and then eased off a point during the summer months. Now it has risen three more points.

That was based on information avail-

The council attributed most of the

rise in prices during 1965 to special and specific cases. Meat prices were high-er principally because of conditions in

London—(CP) — Medical researchers in London say King George The Third, regarded as a "mad monarch," was not mentally ill in the accepted sense at all. The researchers report they have discovered that he suffered from a classic case of Porphyria.

MacAlpine and Doctor Richard Hunter say they plowed through acres of records to seek the real cause of the king's so-called 'madness'.

The Iron Horse

Thirty-five weeks ago we printed the first instalment of Charles Heels' series of articles on railroading entitled "Lindsay — A Railroad town." With the 35th instalment this week the

series is complete.
The demand for copies of "The Post" containing these articles was expenjounal and shows the great interest people have in the days of the old iron. Rullredown and the present the days of the old iron period the past, thrilled again to behenoths of the past, thrilled again to takes of the great-girthed Malleta, the mutter (Consolidations, the putting Mikadoss, the rangy Northerns, the heavy Nedles, the humpbacked Map over the lowly troight horse.

The age of steam is over and the haunting whistle of the steam locomotive just a memory. In Britain, where it all started with Stephenson's Rocket he circle has turned aimost full circle and in that land, with the most conand in that land, with the most con-gested and complex railway system in the world, the last few thousand steam trains are due to be phased out by 1987 as the diesels and electrics gain full sway. In Canada and the United States the end of the steam era came

We enjoyed your series Mr. Heels and we know our readers did. We know too that you enjoyed your many years in railroading during the years when the profession was freighted with romance, smoke and glory.

To provide medical services to greatly expanded seasonal populations in tourist regions, consideration should be given to relocating urban hospital interns for the summer months.

The procedure for hearing liquor lic-ense applications should be accelerated and minimum standards for approved commodation should be the same for censed and non-licensed premises.

All car "graveyarde" should either be moved well away from main high-ways or be required to be fenced. The necessary legal authority to enforce such a move should be given to the Department of Highways

For various reasons, redistribution

MAY DISCONTINUE "DOMINION"

(CP) - The Board of Transport Commissioners has given the CPR permission to discontinue the Dominion, one of its two Trans-Continental trains. But the railway must agree to restore two trains between Montreal and Toronto that were merged into the Domini-on last fall. The transport board said Friday it will reserve decision on whether the CPR should operate the Do-minion during the summer.

Speech from the Throne

The speech from the throne has been read and includes some new proposals and much unfinished business from last year. The legislative programme proposed is a massive one.

programme proposed is a massive one. One pleasing sentance in the speech indicates that Ottawa is prepared to dig in its hees and resist any further attempts by provincial governments to enter fields now under feedral control. That sentence reads: "While respecting fully the responsibility of the provinces, the Government is equally resolved to the Government is equally resolved to maintain the Constitutional responsi-bilities of the Federal Authority." Quebec said recently that it wants to assume control of the federal family

lumediately the speech had been issued, the three Opposition Party Leaders predictably slammed the Government. Descriptions of the speech included such adjectives as "puny, pal-

lid, pedestrian and ineffective."

Creditiste leader Real Caouette said the throne speech was full of empty

The Socred leader Hobert Thompson noted the fact that State Secretary Judy LaMarsh will head a State film industry and observed, "We hope she won't be the start!" With that caustle comment we also agree, and hope that the Opposition leaders will permit the Government of Canada to get on with the job of governing free from unreas onable fillbustering.

About an import

Canada would seem to be such a poverty-stricken country in the mat-ter of ideas that it must import even its political jokes. One going around Ottawa during the November election compaign was about two political leaders. Messrs. Pearson and Diefenbaker, caught in a stormy sea in which their small boat was upset. The riddle is: which was saved? The answer is; the

Into seemed very funny to the person who never heard it before. But in a recess of the brain came word that the anecdote had been applied to Messers. Goldwarer and Johnson. And more apt there too, because President Johnson does dash around in a small boat and midely and another the production. api there too, because recovery and boat can does dash around in a small boat and might, as a generous gesture, have taken Mr. Goldwater for a spin. In fact it may be claimed that Mr. Coldwater is still spinning.

Blessed Awkwardness

Blossod Awkwardness
"In the early days of railways some
British landowners were very awkward,
and now we may be glid that they
were. For when the first railways were
built large parts of England were still
a kind of vast, landscape garden, planted in the middle years of the eighteenth
century and just then reaching maturity. The intrusion of the railways
turity. The intrusion of the railways turity. The intrusion of the railways into these lovely scenic pictures was a different matter from that of the gently dozing canals. So the companies made great efforts to soften the violence of their impact."—Alec CHf. ton-Taylor, author of "The Pattern of ton-Taylor, English Building'.

Merchants edge Clippers 7-6

Lindsay Merchants were saved by the clock at Stouff-ville and came home with a goalie in stitches and a 7-6

ing along nicely on a 6-2 lead with eight minutes to go in the

Goalie Doug Broad set up the Merchants tidy lead on a face nick and a barked knuckle that bothered him in the late minutes, and faced three atminutes, and faced three at-tackers without help on the last two Clipper goals, but in the first period alone Doug turned aside sure shots from Ken Aida and Pete Everett at

close range.

The first period closed on a two all tie score, and the Merchants scored the only goal of chants scored the only goal of a fast skating second period, leaving the final stanza to tell the story of the game. The Merchants banged in three un-answered goals in nine min-utes but the Clippers would not stay dead and roared back

in the Morey the Merchant struck back with wait proved to be the winner at 13-32. Stoul'fulle goals at 17:40 and 19-39 left the Merchants barely in front with one second left in the game. On the merchant with the stoul pulsar of the merchant with the goals, but Wayne McLeish playing on left wing, secord a goal and assisted on four to set up the Merchant's win. London (CP)—There's to be another historic move to strengthen relations between the Anglican and Roman

Catholic churches.

The heads of the two churches will meet in Rome March 28rd—The first such meeting in more than five years and the second since 1397.

The Archbishop of Canterbury, Most Reverend Michael Ramssy, in his meeting with Pope Paul will be accom-panied by a number of Anglican offi-cers. They will include most Reverend Ralph S. Dean, Bishop of Cariboo in

The problem has always been and still is, according to the report, to find a common ground in which individu-alism, in terms of time-use and creativity of the Indians, can be matched to the need for some regularity of pro-duction. It is no simple task, because the goals of the Indian and the white man are not necessarily the same, par-ticularly in their differing concept of the demands of commerce.

The last meeting between the Anglican and Catholic Church leaders was the December 2nd, 1960, conference between Archbishop Geoffrey Fisher and Pope John the 23rd. Previously no Archbishop of Canterbury visited a Pope since Pope Boniface the Ninth received Archbishop Arundel in 1862. But since 1960 the two churches

The new Walker's store will be a credit to Lindsay and to the Gordon Mackay Company owners of Walker's

past and we know Mayor John Eak-ins is in favour of such an improve-

ment to the downtown area.

Basically the "Norwich" plan (so called because it was originated in Norwich, England) is to have the Norwich, England) is to have the whole downtown area designed by an artist as a unit with new store fronts and fascia boards and then have all merchants co-operate in cleaning all merchants co-operate in cleaning up and painting their premises. All overhanging signs are removed and merchants each have a well designed fascia board. Without hanging signs, the appearance of the whole street is improved and each merchant has an equal advertising opportunity with his store from.

Today In History

(CP)—Today is Friday, January 21st, the 21st day of 1936. There are 344 days left in the year.

Today's Highlight in History: On this date in 1907, carry Amelia Nation wrecked a saloon in Witchita, Kansas, dramatizing a crusede in fav-our prohibition—and entered American folklore. Born in 1846 in Kenucky, folklore. Born in 1846 in Kentucky, she married drunkard and their order unhappy life together prompted her saloon-smashing career later. She also lectured in Canada and the United States, often speaking between acts at

Fifty years ago today, in 1916, the
King and Queen of Montenegro fied to
Italy from the advancing Austrians;
Russian artillery bombarded Turkish
forts at Erzerum.

Second World War

Theory of the years are today in 1011.

Twenty-five years ago today, in 1941, the British Government banned two Russian newspapers; British troops penetrated five miles into Tobruk's depencia and rive miles into robrigs the fences; General Antonescu appealed to the Fascist Iron Guard for help in restoring order in Romania.

club meets at the arean, and a senior citizen's group.

The Recreation Commission organize a Ski school and provide facilities for Hunter Safety courses. During summer months children's playgrounds are operated, minor softball organized, soccer, hardball and track and field

As the recreational facilities in Lind-say grow and more cultural activities are added to the already impressive list, it might be worth considering ad-ding another member to the Recreation Commission to represent the arts and crafts and community programmes aspect of the Commission's operation. All in all, it was a most successful

Problems of Pollution

Canadians are becoming increasing ly concerned these days with the pro lems of air and water pollution problems which are directly related to problems which are directly related to Canada's dynamic industral growth, expanding population and modern trend towards urbanization. As Can-ada continues to advance, these probada continues to advance, these prob-lems would become serious to the point of crisis were it not for the action being taken now by far-sighted and socially responsible companies and groups of companies working with municipal and provincial authorities to assure that it won't. Examples best serve to illus-tant the serve of these plans done with trate the sort of thing being done by Canadian industry in this field. In the city of Hamilton, the Steel Company of

Sooner or later all cars rust.

American Motors makes it later.

When our engineers told us that convexly car. Then we top it by baki convexly every car rusts, we said: make sure that for our car. . . . someday is rusbing elbows with never.

Oh. cure—the Rockine will events.

So they set out to give you the world's best rustproofing.

They started by putting a tough, alvanized shield on all the underside earts that rust gets to first.

Then they built a 300-foot-long annel (we call it our Tunnel of Love). uside they put spray jets, scouring ts, drying jets and six king-sized athtubs of special rustproofing

rustproof coating.

Oh, sure—the Rockies will crumble, Gibraltar will tumble, your Rambles will rust—someday.

Wordsworth wrote his famous sonnet on the view from it, Earth has not any-thing to show more fair . . . " It seemed to have been the famous King Canute, said Ewer, who first es-tablished his court at Westminster, and made the "King's Palace of Westmin-

Westminster: Centre of government

When, a thousand years or so ago the Kings of England chose Westmir ster rather than the old City of London as the seat of their government, they had some sound reasons, said W. N Ewer in a BBC World Service broad-The citizens of the City of London, about one and a half miles down the Thames from Westminster, were proudly independent, jealous of their privileges and local self-government, the walls of that troublesome City

the walls of that troublesome City. "Westimister was an obvious choice —outside, but not too far away, and linked with the City by the Thames, which in early days was the main thoroughfare. Indeed, local historians claim that Westiminater is older even than the City of London, and it may well be so. London City is where it is because there was the first spot, sailing because there was the first spot, sailing up the Thames, at which ferries could over the Lower Thames. But at Thorney, where Westminster now is, the iver could be forded. So, from heaven knows when, that was where the first 'trade route' for the caravans of packhorses, travelling from Kent in the south to the Midlands, crossed the

Westminster' and have done to this day. Whitchall, now merely a street name, has become synonymous with the administration of government, because the big government buildings—the Treasury, Foreign Office, Home Office, Commonwealth Relations and so on—are situated there.

In 1697 the royal court was moved from Whitehall to St. James's Palace on the oter side of St. James's Park, but still in the city of Westminster. Foreign ambassadors to Britain are still said to be "accredited to the Court of St. James's", although it is well over a century since nearby Buckingham Pa ace became the London residence the Sovereign,

Transistors in the Home

There is nothing improbable in the idea of switching on the lights in a room simply by calling for light. Mr. Teddy Towers, of Newmarket Transistors Limited, predicted this as a likely development in the next few years when he talked to Paddy Feeny in the ers' Corner' programme about the It would be a commercial prop osition, he said, to supply a complete switch which could be set in the wall and operated in this way. Transistors box, and required a separate power pack for two powers—a power for the filament and a power for the anode.

Mr. Towers went on to describe the completely automatic programmed cooker, which was already a reality, and would be a production reality within three years. "There is a series of knobs, and the housewife can mix up the ingredients according to some

Freedom of News Important Factor

There seems to be much misund standing about letters to the editor. the ordinary course of affairs, the re-cipient of any letter is entitled to do what he likes with it. Subject to the laws of libel and contempt of court the editor publishes those letters which will interest the reading public, and the wan increast the resuming public, and the more interesting they are, the more gladly he will publish them. The editor spends all his life trying to find stories that will interest his readers, but there is no compulsion on him to bore his readers to death.

False definition

"It sounds very precise to say that one of the sixteen direct ancestors of a person—that is, a great-great-grand-parent—belongs to a particular race, then he is one-sixteenth a member of then he is one-sixteenth a memoer of that race. But genetically a man can-not be described as if he were a cock-tail or an omelette!"

—Robert Gardiner in his BBC Reith Lectures on 'A World of Peoples'.

Reprehensible

Secrecy in the conduct of municipal business has not yet been abolished. A member of York Township council in Ontario was accused of "playing to the grandstand" when he sought to get information or a ruling from the town-ship solicitor as to what information he could get. Keeping information a-way from the voters is an old and reprehensible custom.

Government Bond Issue

Ottawa, (CP)—The Federal Government Monday offered bonds paying yields of up to 5½ per cent to refinance \$300,000,000 worth of 3½-per-cent bonds coming due February lat.

The new cash offering of Govern-ment of Canada non-callable bonds to be dated February 1st. was made in three maturities and two are additions to medium and long-term issues a ready outstanding.

- Four-per-cent bonds due April 1st., 1967, offering at 98.70 per cent of par to yield about 5.16 per cent a year to maturity in 14 months.

— Five-per-cent bonds due July 1st., 1970, offered at 98.50 per cent of par to yield about 5.38 per cent a year to maturity in four years and five

1st., 1980, at par to yield 5½ per cent a year to maturity in 14½ years.

Of the \$300,000,000 total, the Bank of Canada has agreed to take at least \$50,000,000, open as to maturity. The books of the loan will close at 6 P.M. EST Tuesday, when the amounts to be sold of the short, medium or long-term issues will be decided

The new five-per-ent honds are an addition to \$125,000,000 worth dated July 1st., 1985, and the now 5½-per-cents are an addition to \$120,000,000 dated August 1st., 1982, and the State of \$120,000,000 dated August 1st., 1982, and the February 1st., of which the government is refinancing \$300,000,000.

Mr. Towers mentioned another pro-ject on which he and engineering teams were now working which was of much interest to amateur photographers who had difficulties in assessing how They hoped that eventually it would be possible for the photographer simply to lay a box on his enlarger platform, read from one dial what contrast paper the exposure so that he did not even have to set a switch — "he merely puts in his meter, picks out his particular

A newspaper is a private undertaking, and though it circulates among the public, it is not a public affair, so that frate readers cannot "demand" that the

publish what they wish to say, though the newspaper still has the right to re-

From this it is quite clear that the redom of the press includes the right not to print. This is logical, for a newspaper would not be free if it had to publish all that was sent to it.

Freedom of the press also includes
freedom of choice, for it would be imordinary newspaper. This necessity for choice will sometimes mean that news is left out of the newspapers, and this leads to the belief by some people that newspapers exercise some kind of consorship over news.

Though a great many people may

not believe it, nothing could be further from the truth. There are only two things which count with an editor;

Will there be room for it? This often mens he acquires a headache. When a reader's letter is opposite,

interesting and without malice, then editors will gladly publish it. It is up to the writer to make it that way.

-Delhi News-Record.

"The whole notion of the survival of the fittest is in the realm of ideas, and so of encouraging mutations of ideas and letting them fight it out, is anathema to people who cannot even conceive that truth is multi-dimensional, that no one individual, no one line of approach, can be adequate to more than a few facets of it, and like the blind men feeling different parts of the elephant or like the mice in my child-ren's storybook describing a cow from different perspectives, each of us has his contribution to make from his particular vantage-point in the quest of a truth that will for ever remain only imperfectly attainable." Canada and Vietnam

United States problems in Vietnam Chinese Communism deserves the open and active support of the Canadian people. External Affairs Minister Martin reiterates the familiar and weak the three-power international Control Commission, and we are no doubt fear-ful of offending the Communist purchasers of Canadian wheat,

Mr. Martin has however, sounded a warning of what falure to suppress ag-gression in Vietnam would mean, and he mentioned the threat to Laos, That-

land and Malaysia.
It is long past time for Canada to stop sitting on the fence. This nation has a moral obligation to help the United States with medical, technical and teaching personnel and at least a token force of soldiers. Should the United States be defeated in Vetnam, India, Thailand, the Philippines, Australia, and Malaysia would be threaten-

to the United States we have the long-range considerations of the future threat to Canada's security if the Victnam conflict isn't won by the United

E. Brubaker, Agricultural Engineer, Ontario Department of Agriculture. "You can't go onto a dealer's lot, bar-gain for them, and take them home the same day, or trade them in next year If they don't suit.

If you intend to have a new struc-ture built this year, then start planning the project now. For best results, you

should make arrangements with a con-tractor in February or March before his summer schedule is booked."

JANUARY 28, 1916

"The entire course of human history may be bound up in the events occur-ing in Vietnam", said U.S. Representa-tive Robert McClory of Illinois, and an-other representative in Congress said "We have as much at stake in South-

east Asia as we had in Europe in the 1940s and, in my opinion, it is unthink-able to talk of abandoning South Viet-
